EDUCATION

M.Sc Computer Science *Department of Computer Science, DU*
Ongoing

New Delhi, India 2026-Present

BS Computer Science *University of Delhi*
CGPA - 8.523

New Delhi, India 2022-2026

PROFESSIONAL EXPERIENCE

Software Developer Intern *Binari Intelligence System*

Tamil Nadu, IN 06/2024 - 08/2024

- Revamped landing pages with React & Tailwind, improving SEO, UX, visual appeal, and conversion rates by 32%.
- Built inventory management system, streamlining employee workflows and inventory tracking efficiency by 44%.
- Developed scalable online test platform with landing page, boosting revenue and audience reach by 15%.

Frontend Developer *TrustRoots Network*

Bangalore, IN 12/2023 - 05/2024

- Built a scalable web platform, increasing visibility by 40%.
- Revamped modern UI boosted conversions by 30%, enhancing user experience and fostering trust-based global aid partnerships.

PROJECTS

GymManagr - Multi-Tenant Gym Management Platform [\[Live\]](#)

04/2026 - Present

- Architected and deployed a multi-tenant SaaS gym management platform using Next.js 14, TypeScript, and Firebase, onboarded 3 commercial gyms, who are managing their 1,000+ monthly active member profiles through a unified dashboard.
- Integrated biometric devices with automated attendance synchronization, expiry-based access control, and scheduled plan-renewal jobs.
- Implemented role-based access control, payment/invoice automation, and analytics for operational and trainer management.

TESTIFY - AI-Powered Learning Platform [\[GitHub\]](#)

03/2026 - 05/2026

- Developed a full-stack learning platform using React, FastAPI, LangChain, and Qdrant for document ingestion, retrieval, and automated test generation.
- Implemented semantic retrieval using HuggingFace embeddings and vector search to ground generated questions in user-provided documents.
- Built a Firebase Auth-backed progress tracking system with React-Plotly.js and Mermaid.js for visualizing user performance.

Move My Car - QR Parking Alert [\[GitHub\]](#)

02/2026 - 03/2026

- Developed a QR-based parking alert platform using Next.js, Supabase, Firebase, and PostgreSQL for anonymous vehicle-owner notifications.
- Implemented notification logic and multi-vehicle management using Supabase and PostgreSQL.
- Integrated Razorpay subscriptions and deployed the application as a cross-device PWA on Vercel.

Loopin - Feedback Platform [\[GitHub\]](#)

10/2025 - 12/2025

- Developed a full-stack SaaS feedback platform using Next.js and Drizzle ORM with embeddable customer feedback widgets.
- Built a framework-agnostic React web component distributable through a single script tag for integration with external websites.
- Built an authenticated management dashboard using Clerk and TanStack Tables for project and feedback management.

ONLINE COURSES & CERTIFICATIONS

- Complete Generative AI Course With Langchain and Hugging Face (July 2025) - [Udemy](#)
- Python and Django Full Stack Web Developer Bootcamp (Aug 2023) - [Udemy](#)
- Python Problem Solving (April 2023) - [HackerRank](#)

SKILLS

- **Languages:** C++, JavaScript, TypeScript, Python, SQL
- **Computer Science:** DSA, OOP, OS, DBMS, Algorithm Analysis
- **Technologies:** React.js, Next.js, FastAPI, REST APIs, MongoDB, Firebase, Supabase, CI/CD, Docker, Azure
- **AI / ML:** RAG, LangChain, TensorFlow, Keras, HuggingFace, Qdrant

ACHIEVEMENTS

- **Finalist:** Dark Patterns Buster Hackathon '23 by IIT-BHU and Govt. of India, among 300+ teams nationwide
- **LeetCode:** 243 problems solved, contest rating 1487 (top 48.94 % globally), 7 contests attended
